SUMMARY

Cybersecurity Engineer specializing in threat detection, incident response, and enterprise security operations. Experienced in developing detection analytics, automating response workflows, and conducting proactive threat hunting to improve SOC efficiency and detection quality. With over 6 years of experience in research and software development in the field of cybersecurity, wireless communication, and satellite communication.

EXPERIENCE & SKILLS:

Detection Engineering • Threat Hunting • Threat Intelligence • Incident Response • SOAR • Penetration Testing • Malware Analysis • Digital Forensics • Cloud Security • Vulnerability Management • IAM • Red Teaming • DLP • IDS/IPS

- **Security Stack:** Microsoft Sentinel, Defender (XDR), SentinelOne, Palo Alto (XSIAM/Xpanse), ExtraHop, Recorded Future, Security Onion, Splunk, AbnormalAI, Cisco ETD, Security Scorecard.
- **Infrastructure & DevOps:** Docker, ServiceNow, Elastic (Kibana), Palo Alto Firewall, UpGuard, Intune, Tanium, Rapid7, Wiz.
- **Programming:** Python, BASH, PowerShell, KQL, C/C++, MATLAB, SQL.
- **Certification:** CompTIA Security+, Recorded Future Certified Analyst

PROFESSIONAL EXPERIENCE

Cybersecurity Engineer | Florida Department of Children and Families

Jan 2025 – Present

- **Optimized SOC operations to achieve a 7-minute Mean Time to Remediation (MTTR) and a 30% reduction in total incidents** by engineering custom analytic rules and automated playbooks within Microsoft Sentinel and Defender.
- Conduct malware triage and analysis using Recorded Future Sandbox and Kali Linux to identify root causes and TTPs.
- **Perform incident response and proactive threat hunting** across **Microsoft Sentinel, ExtraHop, SentinelOne, Palo Alto Xpanse, and ReliaQuest GreyMatter** using **KQL, Recorded Future, VirusTotal**, and OSINT to identify emerging threats.
- **Reduced agency-wide phishing incidents by 80%** through monthly simulated phishing campaigns and a gamified security awareness initiative targeting **6,000+ employees** across 7 regional offices.
- **Lead quarterly CSIRT simulation exercises**, improving incident response coordination and reducing response times by **30%**.
- **Assist GRC team to remediate audit findings** and maintain compliance with **NIST Cybersecurity Framework**, HIPAA, and federal data protection standards for **PII, PHI, and FTI**.
- **Collaborate with DevOps teams to identify and remediate application vulnerabilities** through **DAST scans using Rapid7** and **SAST analysis using Wiz**.
- **Manage asset inventory, vendor risk monitoring, and security posture tracking** using **Tanium, Microsoft Intune, Lansweeper, SecurityScorecard, and UpGuard**.

Researcher | Florida State University

Aug 2018 – Dec 2024

- **StarAngle:** User Orientation sensing using Starlink Satellite Beacon signals ([Published](#))
- **2-Pipe:** Simultaneous Downlink Transmissions in LoRa ([Published](#))
- Intrusion Detection using deep active learning.
- Malware classification and detection using data mining.

EDUCATION

PhD in Computer Science | Florida State University

May 2020 – Dec 2024

M.S. in Cybersecurity | Florida State University

Aug 2017 – Dec 2019

B.S in Computer Science | RGPV, India

Aug 2012 – July 2016
